

Galactic Travel at Warp Speed In Imaginary Time

By Charles E Anzalone

Xlibris Corporation. Paperback. Book Condition: New. Paperback. 168 pages. Dimensions: 9.0in. x 6.0in. x 0.4in. Knowing where we came from, will help us to understand what the future holds for astronauts, and the rest of mankind that will need an alternative fuel. The same fuel that is proposed in the construction of a spaceship in this book can also be used to power cars, homes, and cities. Technical theories based upon Einsteins equation, a decoding of the Bible, and astronomical properties of our galaxy, explain how other properties for time exist. They are expressed as imaginary time which is equivalent to the 4th dimension, sector time which is related to dark matter, and time-line that explains exactly when the Great Flood occurred during the time of Noah. The passages that were documented in the book of Moses called Genesis , provide mankind with the answers that he will need to pioneer his travels to other solar systems. The Biblical time-line is significant because it describes the events of the prehistoric past, and it defines a need to modify Einstein s famous equation or $E = mc^2$. Unique concepts are required for mankind to see beyond new barriers - barriers that cross the...

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
